Sherven stated he is concerned the big problem is the DNR's lack of oversight, review, and follow up of making sure the proper testing is done. H. Pulliam mentioned that some counties have passed regulations as far as to when manure is able to be spread. J. Freitag mentioned there are guidelines we could possibly come up with to strengthen our proposal. He also asked how much land in the Town of New Glarus is not covered by the ETZ mile and a half and asked if with the ETZ boundary being so far, this is even something we should even be looking into. What concerns C. Narveson about these big operations is the tractors and trucks destroying our roads. S. Crum suggested creating a plan of action to keep moving forward. After discussion, it was decided more research is needed to make a decision.
